

Supplemental Materials

Public health guideline compliance and perceived government effectiveness during the COVID-19 pandemic in Canada: findings from a longitudinal cohort study

Emily E. Levitt^a, Mahmood R. Gohari^a, Sabrina K. Syan^a, Kyla Belisario^a, Jessica Gillard^a, Jane DeJesus^a, Anthony Levitt^b, James MacKillop^{a,c,*}

Supplemental Figure 1

Note: In this plot the two groups of “Very unimportant” and “Somewhat unimportant” were combined because of the very small sample in each.
