

A**B**

Supplementary Figure S4. **A** Western blot analysis showing downregulation of Aurora A upon treatment of cells released from a double thymidine (DT) arrest with CRT0066101 (CRT). **B** Quantification of Aurora A protein levels by densitometry scanning. The graphs show average of three independent experiments with error bars representing SEM (** $p < 0.01$, **** $p < 0.0001$).
