

Data Sharing Statement

Reis G, Silva EASM, Medeiros Silva DC, et al. Early Treatment with Pegylated Interferon Lambda for Covid-19. N Engl J Med. DOI: 10.1056/NEJMoa2209760.

Question	Authors' Response
Will the data collected for your study be made available to others?	Yes
Would you like to offer context for your decision?	—
Which data?	Other (eg, partial data sets) — please describe
Additional information about data	To be determined
How or where can the data be obtained?	Vivli.org https://search.vivli.org/studyDetails/fromSearch/2cff88cd-9e07-430f-8c4e-be660b9c233d
When will data availability begin?	With publication
When will data availability end?	NA
Will any supporting documents be available?	—
Which supporting documents?	Analytic/Statistical code. Informed Consent Form
Additional information about supporting documents	—
How or where can supporting documents be obtained?	togethertrial.com
When will supporting documents availability begin?	With publication
When will supporting documents availability end?	NA
To whom will data be available?	Researchers whose proposed use of the data has been approved
For what type of analysis or purpose?	Analyses based on pre-planned analysis with a protocol.
By what mechanism?	after approval of a proposal
Any other restrictions?	None
Additional information	Only data relevant to the publication will be provided per proposed protocols.
