

c

Gene Ontology - Lightgrey

Gene Ontology	Adj.p.value
Chemical synaptic transmission	0.00186
Potassium ion transmembrane transport	0.00186
Potassium ion transport	0.00186
Adenylate cyclase-modulating G protein-coupled receptor signaling pathway	0.00258
Negative regulation of inflammatory response to antigenic stimulus	0.00364

e

Gene Ontology - Snow

Gene Ontology	Adj.p.value
Myelination	4.79E-07
Gliat cell differentiation	0.003177
Oligodendrocyte development	0.003976
Axon ensheathment in central nervous system	0.006171
Oligodendrocyte differentiation	0.006171
