This supplemental material has been provided by the authors to give readers additional information about their work.

eFigure. Distributions of Age at Death across Four Birth Epochs: Religious Orders Study and Rush Memory and Aging Project^{a,b}

^a Red lines denote the 6 categories of age used for age-standardization (<82 years, 82-85, 86-89, 90-93, 94-97, 98+ years). This figure demonstrates that there is adequate overlap in age categories across the birth epochs to enable control for age.

^b 1905-14, n=374; 1915-19, n=360; 1920-24, n=466; 1925-30, n=354
