## Mental Health

Mental health includes our emotional, psychological, and social well-being. It is an important part of our overall health and it affects how we think, feel, and act.

Depression is one of the most common and serious mental health conditions in the world. It's more than just a feeling of being sad or "blue" for a few days, depression persists and interferes with your everyday life.

Our online assessment tool can help you make sense of your feelings and could be the first step toward getting the help that's right for you. Get started and find support today!
